# 25 years of Gharieni a success story

Trend-setting and finest designs as well as innovations in the area of Spa, wellness, beauty and medical treatments - that's what the Gharieni Group stands for. When taking a closer look at our product portfolio today, one may hardly believe that it all began with Electro-Medical Gharieni, a purely commercial enterprise. The request for a dialysis bed "made by Gharieni" motivated us to enter business as a manufacturer in the field of "Medical", followed by more developments, which include treatment tables for aesthetic surgery and medical diagnostics as well as for physiotherapy and pedicure.

## Expanding into New Markets

The growing wellness and beauty market including its new demands and challenges made us focus our attention upon this segment. We laid the foundation stone for our economic success with quality-controlled and innovative wellness and treatment tables "made in Germany" the quality and functionality as well as the unique design of which convince our customers. The breakthrough in the field of Spa came with our first wellness table MLW Classic; this model became a bestseller which can be found in the Spa areas of top hotels all over the world until today.

## Global presence

Motivated by our growing success, we have not only opened a branch in Ettlingen for our customers in southern Germany. Gharieni branches can also be found outside of Germany - in France, the Netherlands, Belgium, Dubai and, recently, the USA.

A network of competent sales partners provides "Gharieni-quality" service and advice for international clients. Our sales partners can be contacted in important neighbouring European countries, e.g. in France, the Netherlands, Belgium, Austria, Switzerland and Poland. The constantly growing sales figures show, that we have gone down the right road.

In addition to the cooperation with our sales partners, a main focus of our activity lies on active networking on a national and an international level. For example: we do not only take an active part in large international trade fairs, but also in important Spa-events all around the world. We often support such events as a premium sponsor. The subsequent contacts enable us to discover new trends and products at an early stage. Moreover, these trade fairs and events are essential for a successful global marketing of our products.

## Unbeatable wellness-concepts

Our experts have been developing complete wellness-concepts since 2010 which include not only our treatment tables and equipment, but also complete treatment programmes including matching accessories. The launch of our Psammo-concept has been extremely successful. This wellness table is equipped with quartz sand, which offers the customer an unique relaxation experience, and has become an absolute and global Spa trend.

Another milestone was the entry into the business field of hydrotherapy. We use e.g. the highly-exclusive Corian® of the Dupont company for our HydroSpa collection to equip our products with a waterproof and seamless surface. Selected water choreographies; e.g. for our Libra models; or the highly functional multi-talent PediSpa have won loyal followers worldwide.

## Equipment according to your preferences

As customer needs and wishes are all-important for us, we not only offer an unique range of treatment tables and models but also the unique option to customize "your" treatment table optically when using our wide offer of colours and decor - this is also part of our portfolio.

## Gharieni today

The Gharieni Group of today enjoys international reputation. Our products are appreciated by luxury hotels and Spas worldwide as well as by beauty clinics, small but exquisite cosmetic institutes, beauty lounges and medical practises. This reputation is both for us - an additional motivation as well as an obligation to convince the market with our high-quality products.

## Success demands more room

... we also took this issue into account last year. We were able to continue to meet the constantly rising demand on schedule by means of additional 4.500 m<sup>2</sup> of production area in the city of Moers in the Lower Rhine region, so that we also have, in addition, the opportunity to expand production.

And there will be no standstill even this year as we are currently planning to convert our exhibition area into a Specialized Centre for Spa and practice equipment. But more details will not be revealed just yet. However, this much we can reveal: It will be interesting to see.....

Exquisite terry products indicate, that you place great importance on comfort in your massage studio or spa. First-class production guarantees the exquisite design, perfect manufacture and - of course - high quality materials of our compress cloths, facial cleansing cloths and towels as well as of our upholsterycovers.

The selected material convinces through its comfortable grip, extreme absorbency and wonderful, comfortable skin sensation. In addition, the fabrics and covers including their borders and logos will keep form and size. Top quality colouring guarantees demanding colour nuances of highest quality and stability.

As we provide these offers you can take advantage of receiving cloths/towels and covers as well as velour cloths and cotton sheets from a single source.

So, not only the quality is right! Moreover, the coherent presentation of your spa/institute is enabled. Please use our Wellness- & Medical-Accessories Catalogue to receive further information about our terry products.

## The Right Cover for Your Gharieni Bed.

Our covers, which are specially-manufactured for our spa tables, will perfectly protect your working devices from dirt and heavy use. Due to the high-quality material machine laundry (max. 60°C) for hygienic cleaning is thus possible. Internal elastic bands keep the single sections exactly in the right position. All functions of the spa table will continue working.

Our covers are available in three different colours: white, choco and crème.

It would be best if you order the relevant cover when purchasing the spa table. Our team will be happy to advise you

### Velours Sheet 100 x 200 cm

100% soft cotton, front and back with different surface structure

white

**Art. 45500WE**

cream

**Art. 45500CM**

### Velour Sheet 150 x 230 cm

100% soft cotton, front and back with different surface structure

100 pieces

**Art. 63909**

## Water Extractor Suitmate

- dry bath linen in only 8 seconds
- removes 95% of moisture
- suitable for all textiles
- no wet swim bags
- reduced moisture in changing rooms

Technical data:

Dimensions H x W x D: 590 x 380 x 380 mm;  
weight: approx. 27 kg

**Art. 67000**

## LED Magnifying Lamp Flex

- 6 dioptries
- standpipe and flex-hose made of robust metal
- 2 joints
- 63 LEDs
- dimmable
- arm length approx. 84 cm

**Art. 41980**

## Table Stand

Enables perfect and stable working with the LED Magnifying Lamp Flex due to its own weight of approx. 3.5 kg. Five rubber feet mounted on its bottom prevent slipping.

**Art. 41982**

## Table Clamp

For LED Magnifying Lamp Waldmann RLLQ48R and Flex. Can be installed quickly and securely to the work table.

**Art. 41981**

Magnifying Lamp Luxo Circus

- maximum mobility
- low optical distortion
- extra-large magnifying lens, 3.5 dioptries
- magnification: 185%
- holder for auxiliary lenses
- colour-neutral 22 Watt T-5C-ring light
- D1: 26 / D2: 16.5 / A: 48 / B: 46

**Art. 41855**

Magnifying Lamp Tevisio  
RLLQ48R

Magnifying lamp with an extra-large lens in a reduced and modern design. Maximum mobility by its innovative rod assembly technology.

- lens diameter: 15.3 cm
- distortion-free lens
- 2 x magnification
- 48 LEDs with 14 Watt at 6000 Lux, dimmable
- incl. table clamp

**Art. 41985**

D1: lamp-diameter in cm; D2: lens-diameter in cm  
A: length of upper arm; B: length of lower arm

Magnifying Lamp  
De Luxe PLUS TITAN

- 3.5 diopres
- universally adjustable arm in an elegant look
- completely covered lamp-arm
- 22 Watt ring light
- D1: 22 / D2: 12 / A: 52 / B: 54
- also available with LED-technique

**Art. 41834**

Magnifying Lamp  
De Luxe PLUS TITAN LED

**Art. 41834LED**

**Standard spare ring light/22W  
Art. 41806**

## Hf Handheld Machine without Accessories

- max. accomplishment: approx. 30 Watt
- frequency: 5 0 - 60 Hz
- length: approx. 32 cm
- diameter: approx. 5 cm
- weight: approx. 320 g

**Art. 43591**

## HF handheld machine with 3 electrodes

incl. small and large mushroom electrode and neck/breast electrode

**Art. 43590**

### 1) Roll-on Electrode

**Art. 43510**

### 2) Mushroom High-Frequency Electrode, Large

- 45 mm

**Art. 43506**

### 3) Mushroom High-Frequency Electrode, Small

- 20 mm

**Art. 43505**

### 4) Mushroom High-Frequency Electrode, Large

- 45 mm, orange

**Art. 43506OR**

### 5) Mushroom High-Frequency Electrode, Small

- 25 mm, blue

**Art. 43504**

### 6) Scalp Treatment High-Frequency Electrode

**Art. 43509**

### 7) Neck/Breast High-Frequency Electrode

**Art. 43507**

### 8) Indirect High-Frequency Electrode

- metal/glas

**Art. 43508**

### 9) Open-End High-Frequency Electrode

- for wart treatment

**Art. 43511**

## Hot-Cold Applicator

- makes the skin more firm and compact
- the porosities will be closed
- completes the influence of ampullae and cosmetics and reactivated the circulation
- essential after UVA- and solar irradiation-able for facial erythrosis-skin
- to apply with mains operation
- for simultaneous heat and cool massages

**Art. 91335**

### Hot Cabi Mini

Handy heating device for compresses; capacity: approx. 10 face cloths\*. The device heats them up to 80 °C and is suitable for continuous operation. The supplied basket makes loading and unloading the appliance a great deal easier. Incl. a functional drip pan.

- power consumption: 120 W
- weight: approx. 4 kg
- capacity: approx. 6 litre,
- inside dimensions:  
h: 140 mm / w: 220 mm / d: 220 mm
- outside dimensions:  
h: 230 mm / w: 300 mm / d: 310 mm

white

**Art. 98620WE**

stainless steel

**Art. 98620SC/ES**

### Hot Cabi Maxi

Powerful heating device for compresses with integrated UV-light providing a disinfecting effect and a sterile interior.

The device has a capacity of up to **22 face cloths**, heats them up to 80 °C and is suitable for continuous operation. The supplied basket makes loading and unloading the appliance a great deal easier. Incl. a functional drip pan.

- power consumption: 200 W
- weight: approx. 7.5 kg,
- capacity: approx. 13 litre
- inside dimensions:  
h: 170 mm / w: 370 mm / d: 210 mm
- outside dimensions:  
h: 290 mm / w: 460 mm / d: 320 mm

white

**Art. 98610WE**

stainless steel

**Art. 98610SC/ES**

### Compress Towel

for Hot-Cabis, terry white, heavy quality, approx. 50 x 30 cm

**Art. 11435**

Art. 98630HC

Art. 98630CC

Art. 98630AB

### Hot Cabi

Heating device for compresses, 2 levels can be set (L/H), suitable for continuous operation. Capacity: **approx. 8 litres for approx. 35-45 towels or 15 face cloths\***.

- power consumption: 140 W
- cabinet inside temp.: (l) 60-70 °C, (h) 70-80 °C
- inside dimensions:  
h: 152 mm / w: 227 mm / d: 233 mm
- outside dimensions:  
h: 261 mm / w: 300 mm / d: 340 mm

**Art. 98630HC**

### Cool Cabi

Cooling device for compresses, suitable for continuous operation. **Capacity: approx. 6 litres for 25-35 towels or 15 face cloths\***.

- power consumption: 85 W
- cabinet inside temp.: 7-10 °C
- inside dimensions:  
h: 152 mm / w: 227 mm / d: 182 mm
- outside dimensions:  
h: 261 mm / w: 300 mm / d: 340 mm

**Art. 98630CC**

### Joint Plate for CC-8 and HC-8

**Art. 98630AB**

### Hot Cabi XL

Powerful heating device for compresses, capacity: **approx. 150-200 towels or 65 face cloths\***, heats them up to 80 °C and is suitable for continuous operation. The 3 supplied basket makes loading and unloading the appliance a great deal easier. Incl. a functional drip pan. White.

- power consumption: 400 W
- weight: approx. 12 kg
- capacity: approx. 38 litre
- inside dimensions:  
h: 340 mm / w: 360 mm / d: 315 mm
- outside dimensions:  
h: 450 mm / w: 450 mm / d: 410 mm

**Art. 98640HC**

\* Towel: approx. 300 x 300 mm, 35-37 g, face cloth: approx. 340 x 850 mm, 65-75 g

### Boule Freezer

#### Cosmetic Application

Next to the basing effect the boule freezer can also be used for the faster and the more effectively infiltration of agents into the skin in form of creams or ampoules. They also can be initiated to fix make up.

#### Product Attributes

The casing of the boule freezers is made of the special glass Duran-50, which bars the liquid and protects the skin of freezer burn, like they used to incident by using ice before. The contained liquid does not freeze and fulfills all claims of security and hygiene. The grip material as well was specially chosen for long cooling phases and secure application.

#### Direction for Use

The boule freezer will be put into the freezing compartment or the refrigeration. Afterwards the boules will be guided with low pressure all over the skin in rotary motion.

### Boule Freezer

small, 4,5 cm

**Art. 27000**

### Cold/Warm Mask

The gel in the mask saves cold as well as heat and releases them again slowly. Just put it in a fridge or hot water bath, and the mask will provide the face with beneficial warmth or vitalizing coolness.

### Cold/Warm Mask

with Velcro fastener; universal size

**Art. 91333**

### Spatula, Stainless Steel

for mixing gypsum and cosmetic masks, approx. 18.5 cm

**Art. 10228**

### Spatula, Plastic

for taking creams out of the pot hygienically, approx. 19 cm

**Art. 10229**

### Thermo Modellage Maske

250 g, mask for mixing for special treatments, heating to 42 °C

**Art. 10131**

### Gauze

100 pieces, approx. 10 x 10 cm, ideal for Thermo-Modellage-Masks

**Art. 10120**

### Mixing Bowl

mixing bowl made of elastic plastic, green, easy to clean even with material becoming touch dry by compressing

with 1% Vitamin E

**Art. 26209**

## Extruding Bottle

for easy moistening of the masks to deliver the agents, volume: 500 ml

**Art. 35314**

## Therakos Skin Gel

for by trend dirty skin, dries out spots and black-heads, becalms and cares the skin, affects soothing, content: 7.5 ml

**Art. 11470** 1 tube

**Art. 11470** from 3 tubes, apiece

## Skin Ampules

box with 10 pieces à 3 ml

## AHA

with four different types of plants and fruits extracts, gently soften and exfoliate dead skin cells on the upper layer of the skin, generates new cells growth to eliminate fine lines and age spots.

**Art. 28005**

## Collagen

gives the skin smoothness, radiance and keeps its natural beauty.

**Art. 28002**

## Expression Lines

combines a natural extract of Mafane, issued from Reunion Island and L-ergothioneine, a powerful anti oxidant molecule. For a relaxed and smoother skin, visibly younger.

**Art. 28007**

## Azulen

the azulene and mineral oil complex give the skin a moisturizing, soothing and restructuring effect. This preparation helps to fight against irritation and a too dry skin.

**Art. 28008**

## Caviar

provides the skin with all nutrients essential to increased cell renewal, contains marine DNA extract for a deep moisturizing action.

**Art. 28004**

## Elastin

restoring the suppleness and the tonicity and protecting the skin.

**Art. 28006**

## Q10

to support natural defense mechanisms, thus preventing wrinkles and fine lines from appearing, high performance anti ageing effect, enriched with natural repairing and nourishing oils (jojoba, avocado), wheat germ

**Art. 28000**

## Vitamine E

powerful antioxidant care based on vitamine E enriched with nourishing apricot almond oil. By fighting free radicals (mainly induced by UV, stress, pollution...) vitamine E contributes to delay skin ageing. Oil-based, this specific care allows a long time massage but leaves no residue.

**Art. 28001**

## Hyaluronic

The powerful combination of hyaluronic acid (for the hydration), vegetal glycerine (for the softness) and cotton extract, for immediate and long-term efficacy.

**Art. 28003**

## Super Hydratant

strong moisturizer complex (two active ingredients) to let a protector film on the skin to limit the deshydration, a second complex with a tensor effect "rapid beauty"

**Art. 28012**

## Camphor

purifying, refreshing, drying, anti acne properties, specially adapted to oily skin softens the superficial part of the skin and restore a perfect balance.

**Art. 28010**

## Anti Ageing

extremely concentrated in vegetal extracts, FLORYLIS Stimulating anti ageing contributes to boost cell metabolism, providing the skin with nutrients essential to its renewal. Thanks to rose and orange blossom waters, this care purifies and balance the epidermis, also soothing sensitive or damaged skins.

**Art. 28009**

## Zinc

for oily and imperfections-prone skins, with Zinc Gluconate and Camphor to purify the skin, making easier the disappearance of imperfections such as blackheads, blemishes.

### Sapina Diamond Dreams Tweezers

**Perfect grip thanks to finest diamonds!**

Sapina tweezers not only combine all quality characteristics you can expect from "Made in Solingen", but also impress with an innovative diamond coating of their grip points. The coating provides optimal grip and makes e.g. repeated gripping redundant even when removing superfine hairs. Furthermore, the individual hairs can be caught easily during laser or needle depilation; and, of course, Sapina tweezers keep securely in your hand while working. Discover the varied world of these precision tweezers!

## Depth Heat Devices

Depth heat devices increase metabolic activities and stimulate the blood circulation; they also support the tightening of the tissue, weight reduction and the treatment of cellulite. They have a purifying and dehydrating effect; the overall texture of the skin is improved. The physical comfort is generally improved.

Art. 20360SI

## Thala-Slim (2 Thermal Zones)

Dimensions: 1.54 x 1.70 m  
Max. power: 240 Watt  
Heating zones: 2

The Thala-Slim thermal blanket makes depth heat treatments in relation with a cosmetic treatment possible. It is equipped with two heating zones (thorax and leg zone), which can be operated separately or combined, and a timer. It has no seams or velcros on which dirt or microbes can occur, and is completely welded and sealed. The blanket is treated with BIO-PRUF, this means an effective antimicrobial agent and fungicide the effect of which will remain until the end of use is integrated into the material. BIO-PRUF protects from fungi, actinomycetes and bacteria and remains soft and hygienically clean.

Thala-Slim silver.

Art. 20360SI

Art. 20302SI

## Body-Slim (3 Thermal Zones)

Dimensions: 1.54 x 1.80 m  
Max. power: 300 Watt  
Heating zones: 3

1. electronic programming switch:

- variable treatment programme with 3 delay-sequences (preheating-treatment period-resting period) incl. control function for each of the 3 zones (thorax, pelvis, legs).
- permanent indication of the running sequence and the time remaining. The change of the sequences is indicated by an acoustic signal: the operator does not need to permanently check the time.
- booster-key: 20% increased power (thorax and pelvis zones) to accelerate transpiration.
- Operated by a control panel mounted on a console or via wall mounting on a hook.

2. ergonomic blanket:

- with neckline which leaves the shoulders covered.
- front closure with snap fasteners.
- blanket with neckline for covering of the entire body
- inflatable pillow in ergonomic shape and with 2 positions which enable relaxation of the cervical vertebra as well as support of the head.
- 2 pairs of belts for adjusting the tension of the blanket.

Body-Slim silver.

## Thermo System Foil Suits

- for depth warming treatments
- 50 pieces

Art. 20310

### Application of Infrared Light

The heat of the infrared light relaxes the skin. Vessels are expanded for better circulation so active substances not only can penetrate the epidermis, but also deeper skin layers. The infrared radiation specifically heats certain areas of the muscular system to relax the muscles for partial massages. Furthermore, infrared light is most suitable for

the treatment of the entire facial area. The pores are expanded by the penetrating warmth so the sensitive facial skin becomes receptive towards numerous active substances. The use of infrared light is especially recommended in combination with cosmetic masks, ampoules etc.

#### Single Infrared Lamp

versatile adjustable articulated arm with spring balancers, 150 Watt bulb with protective grating

**Art. 41830**

#### Infrared-Duo (Version Incl. Dimmer)

# Beauty Globe

Warming the body has long been seen as the key to relaxation and warming skincare products is understood to enhance their absorption. By creating an appliance that does both, the Beauty Globe combines luxury with results – for your business and your clients.

Therapeutic benefits of applying warmed skincare products: -

- Reduces product viscosity by up to 75%
- Vasodilation – enhanced blood circulation
- Increase product absorption

The Beauty Globe allows you to 'upgrade' the price of your treatment, improve the efficiency, control the product use and enhance the hygiene levels with the easy to use, replaceable cups.

The Beauty Globe with its separate base station is both practical AND gorgeous – from the subtle flower pattern lid to the ring light which brings a gentle glow to the room. It's a real talking point -your 'friend' in the treatment room delivering luxury to your client.

## Beauty Globe

Heating skincare products in just 15 minutes, the Beauty Globe gives the confidence and pleasure of constant temperature for up to an hour - even when removed from its base station. Beauty Globe treatment delivery is unique too! The warmed skincare products are 'painted' onto the skin brushful after brushful adding luxury to all your treatments.

## Quartz Stamp Massage

The partial or whole body massage while using warm quartz stamps and ethereal oils is a wonderful treatment ritual in view of warmth, wellness and physical comfort. The gentle pressure massage with the heat-retaining quartz stamps not only provides specific temperature stimuli but also activates the reflex areas of the skin.

The blood circulation as well as the elimination of toxins and waste products are stimulated; and the flow of energy is controlled. Your customers will enjoy these moments of deep relaxation while - in a gentle way - physical tensions are being eliminated, the muscles are recovering and regenerative energies are flowing - assuredly.

On the following pages you will find everything you need in view of quartz stamp massages.

## Gharieni Sand Pouches Warmer

### The new quartz sand experience

Hitherto, wellness customers could enjoy an extraordinary comfort experience when lying on the Basic Quartz Sand or on the more delicate variations with golden or copper coating. Now Gharieni offers even more: colour-quartz and hybrid-quartz mixtures which are suitable to meet the requirements of special treatments, e.g. Solid Ocean, Himalayan Touch or Baltic Sunset.

### Specific Quartz Sand Mixture Solid Ocean

A "bath" as if you be in the ocean - bring the ocean into your Spa using the new Colour Sand Solid Ocean! The mixture of blue, white and grey quartz sand reminds us of the silver-blue waves of the ocean and reawakens holiday memories. And therefore, Solid Ocean provides an extraordinary experience in all Spa and wellness areas as well as for Thalasso treatments.

Customised colour mixtures for individual Signature treatments and treatment table presentations are available on request.

**Complete filling 200 kg**

### Specific Quartz Sand Mixture Hymalayan Touch

This innovative mixture of quartz sand and Himalayan rock salt brings the beneficial microclimate of mountains, coasts and forests into your treatment room! The steplessly adjustable heating of the quartz and salt mixture release the ions of the salt. The ionized air increases the oxygen uptake during breathing. The positive effects are:

- refreshing and vitalising effects.
- relaxing, anticonvulsant and calming effects.
- stimulation of the metabolism and immune system.

**Complete filling 200 kg**

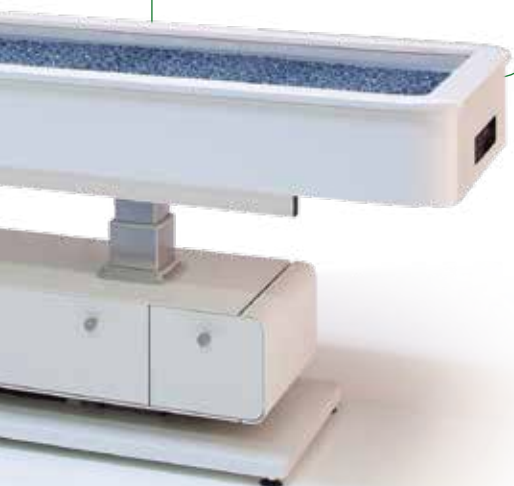

### Specific Quartz Sand Mixture Baltic Sunset

The mixture of quartz sand and high-quality Baltic amber uses the beneficial power of "The Gold of the Baltic Sea". The following effects are attributed to amber, also called Stone Of Security, Stone Of Trust or Stone Of Wholesomeness.

- mental harmonization.
- an energizing effect.
- a compensatory effect on the hormone balance.
- increased vitality.
- detoxification of the body.
- anti-inflammatory effects - even on the skin.
- support of the immune system.

The mixture of quartz and amber provides extraordinary Signature treatments and is also suitable for Thalasso treatments.

 inside dimensions: width: approx. 30 cm, depth: approx. 30 cm, height: approx. 8 cm  
 outside dimensions: width: approx. 34 cm, depth: approx. 34 cm, height: approx. 20 cm

**Art. 49055**

### Hot Stone Set Stone Grey

hot stone set, 50 stones incl. stone heater Stone Grey

**Art. 49049**

### Hot Stone Workstation

provides optimal storage space for lid, tongs and basalt stones

**Art. 49039**

### Hot Stone Tongs

for easy and secure removal of the stones from the stone heater, the silicone coating protects the hot stones from damages or scratches

**Art. 49045**

### Herbal Stamps Insert Grey

insert for heating herbal stamps and compresses in stone heater stone grey

**Art. 49048**

### Thermometer for Hot Stone

temperature display in °C und °F, up to 100 °C or 220 °F.

**Art. 49047**

### Hot Stone Foot Wrap

2 pieces, for fixing hot stones under the feet, white, with velcro

**Art. 49085**

## Hot Stones

Hot stone massage: relaxation using volcanic heat.

The black or grey shiny natural basalt stones from the volcanoes of Hawaii - when heated to approx. 55 °C - are characterised by their heat storage capacity. This attribute of the hot stones provides deeply-penetrating and relaxing warmth for the vegetative nervous system as well as for the muscular system. Physical tensions are eliminated, the flow of energy is stimulated and both the circulation and cell metabolism are supported; moreover, waste products are removed. Use the hot stones for chakra treatment, e.g. place the stones on the solar plexus or neck. Furthermore, you can use them for meridian stimulation. hot stones can be combined with fragrant ethereal oils to carry out beneficial stone massages which can be integrated in numerous treatment programmes.

## Hot Stone Kit

with 54 basalt stones  
12 stones 10-12 cm, 18 stones 6-8 cm, 16 stones 4-5 cm, 8 stones for toes.

**Art. 49068**

## 1 Extra Large Basalt Stone

for sacrum, solar plexus or neck, approx. 9 x 10 cm

**Art. 49074**

## 8 Large Basalt Stones

to use on customer, approx. 8 x 10 cm

**Art. 49070**

## 8 Medium-Size Basalt Stones

for back, arms and hands, approx. 6 x 8 cm

**Art. 49071**

## 8 Small Basalt Stones

for back, arms and hands, approx. 4 x 5 cm

**Art. 49072**

## 8 Stones for Toes

for interdigits, approx. 3 x 4 cm

**Art. 49073**

## 1 Contour-Stone

for planta pedis occiput, approx. 300-500 g

**Art. 49075**

## 4 Trigger-Point Stones

for e.g. meridian stimulation; musculus rhomboideus major

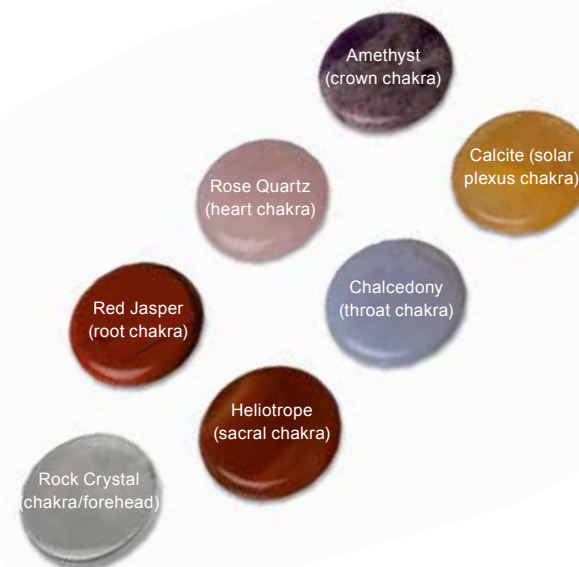

**Art. 49076**

## Chakra Stones, 7-Part

suitable for working on the relevant chakras. The gemstones are cut into an harmonious shape which allows easy use on customer. Can be combined with hot stone treatments / cold stone treatments

**Art. 49046**

### Peter Hess®-Singing Bowls

#### Singing Bowls

to resonate with the inner rhythm...

...to reach harmony of body, mind and soul - massages with Tibetan singing bowls make it possible. Millennia-aged Indian and Tibetan knowledge of the effect of sounds are the basics of sound massages. The fine oscillations of the singing bowls provide an harmonious rhythm of the body fluids. The concentric waves massage each cell of the body in a gentle way. Blockages and physical tensions are eliminated and the complete body is shifted into an harmonious equilibrium. Use the beneficial singing bowls massages to find deep relaxation and inner peace.

#### Small Zen Singing Bowl

clear sound for centring and finishing treatment // diameter: 7 cm // incl. high-quality coaster and felt mallet

**Art. 49510**

#### Joint-/Universal Bowl

eventful sound with a sound spectrum for the complete body, reflex zones on the palm and feet as well as for the joints // diameter: approx. 21-22 cm // weight: approx. 900-1000 g // incl. high-quality coaster and double felt mallet (medium and big)

**Art. 49511**

#### Small Heart Bowl

higher sound for the upper areas of the body // diameter: approx. 16 cm // weight: approx. 650-750 g // incl. high-quality coaster and felt mallet (small)

# Cutters

## Rotating Instruments...

...are instruments you use daily when carrying out foot care and podiatry. You should not only opt for milling cutters, grinders and polishers of the best quality, but also hold a sufficient number of them ready for enabling work without any problems.

One key criterion for the purchase is the CE-label which ensures that the rotating instruments comply with the requirements for medical devices. Moreover, the instruments should be made of stainless steel or carbide to ensure corrosion resistance and thereby a long service life. Additional quality features German manufactures meet with their products are a high removal rate, excellent concentricity, high running smoothness and, additionally, the providing of usage guidelines and instructions on the hygiene treatment. The instruments presented on the following pages meet all of these requirements.

### Steel Cutters, Stainless Steel

Stainless steel cutters are one-part constructions. The basic raw material is stainless steel. The advantage offered by these instruments is that they have very sharp blades. Skin, calluses and nail rims thereby are the preferred treatment areas on the patient. Stainless steel cutters are marked by an orange ring.

### Steel Cutter, Cylindrical, Rough, Toothed

for callus and nail preparation, stainless steel

## Carbide Cutters

Carbide cutters are made of two materials. The instrument head is made of compressed ultra fine carbide, the shaft is made of stainless steel. Optimum dimensional accuracy and concentricity due to the stable design and the high quality precision ground gears. In the field of foot care, carbide milling cutters have proven particularly reliable for the treatment of lignified, hard nail substance. The trephines displayed here as well as the special milling cutters and triangle cutters are completely made of stainless steel (look also to section steel cutters - stainless). Attention: The number in brackets indicates the recommended maximum rpm.

**\*Please note when ordering: The abbreviation behind the article number indicates the level of graining!**

**ef=superfine, f=fine, g=coarse, sg=very coarse, mg=mega-coarse, without abbr.= medium**

## Cutter Meigrit, Hm-Splitter

with very rough carbide splitter for preparing very heavy callus

Ø 023 (22.000)

## Diamond Cutters

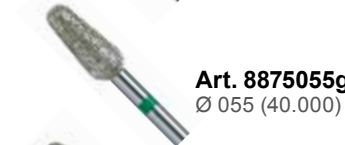

All diamond milling cutters have stainless image bodies and shafts. The instrument heads are evenly coated with diamond grains so they operate very vibration-free with optimum concentricity. The definitions from superfine to mega-coarse provide information about the particle size of the adherent diamonds. Diamond cutters are especially suited for the removing of nails and cornea (suction and spray technique). Diamond instruments have a very long service life when they are handled properly. Attention: The number in brackets indicates the maximum rpm.

### Diamond Cutter, Bud Shape

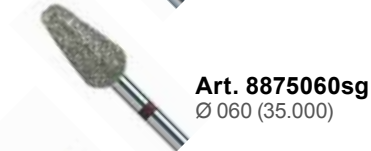

for preparing callus, nails and clavus. Really durable!

Ø 012 (300.000)

**Art. 8985010\***  
Ø 010 (300.000)

**\*Attention:**

**Turbine milling cutters are only suitable for turbines and contra-angles!**

## Grinding Tools

Ceramic grinding tools are made of synthetically-manufactured corundum. The shaft is made of stainless steel. Optimum grinding capacity for polishing of surfaces. Special feature: "automatic" removing of fine layers during operation; thereby the surface becomes constantly "fresh". Moreover, the shape of the grinding head can be adjusted manually. To adapt the mounted point to the desired profile, pull it at low speed across a relevant whetstone.

### Ceramic Grinding Tool

for callus and nail preparation.

## Disposable Burs

Disposable burs should be used as a single-use product because disinfection and sterilisation are not possible. The grit coating will dissolve from the carrying paper when coming into contact with moisture. The disposable burs always should be used together with the relevant rubber support and are especially suitable for callus removing.

Please note the different grain sizes: coarse (g), medium (m) and fine (f).

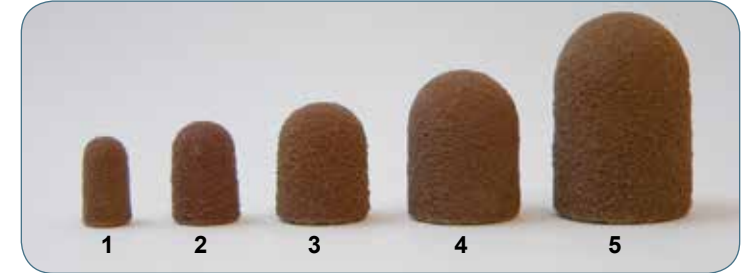

### Disposable Burs made from corundum

#### Disposable Burs, Round, Rough

made from corundum

**Art. 89018**

## Leather Dabber

for nail polishing, Ø approx. 22 mm

**Art. 89031**

## Fine Cotton Fabric Dabber

for a bland removal of filing and for nailburnish, Ø approx. 22 mm

**Art. 89032**

## Nylon-Brin Cleaning Brush

for cleaning nails, removal of filing, etc., Ø approx. 1 cm

**Art. 89029**

## Brush, Horse Hair

for cleaning cutters, extra hard, Ø approx. 17 mm

**Art. 8945034**

## Brush, Goat Hair

for cleaning nails, Ø approx. 17 mm

**Art. 8945032**

for cleaning nails, Ø approx. 19 mm

**Art. 8945033**

## Replacement Brush, Goat Hair

unmounted for the rustless bearing, Ø approx. 19 mm

**Art. 89018**

## Mandrel for Replacement Brush

to use for unmounted brushes, stainless

**Art. 89019**

**Art. 79064**

## Cutter Box

without cutters, with cover flap, for up to 30 cutters, 130 x 60 x 40 mm

**Art. 79064**

## Magnetic Burs Holder

without cutters, with two magnetic stripes

**Art. 79071**

## Magnetic Burs Holder

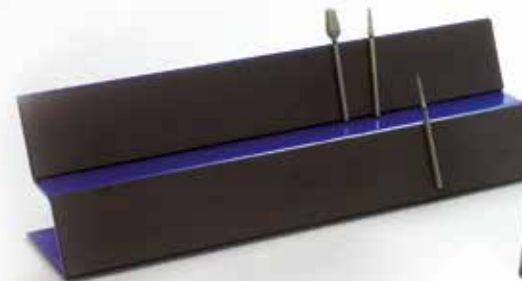

for up to 43 cutters at holder and additional magnetic band, without cutters

**Art. 79072**

## Cutter Box

without cutter, with protective cover, for up to 17 cutters

**Art. 79063**

**Art. 79071**

**Art. 79072**

**Art. 79063**

## Disposable Burs Box

If you order 150 disposable burs (also mixed shapes, colors and grains), you get this box free on request. Quartered with cover flap. l: 76 / w: 52 / h: 25 mm (without grinding caps and mandrels)

**Art. 79065**

### Bur Cleaner

for prepurification of cutters and nippers after disinfection, 55 x 23 mm

**Art. 89020**

### Bur Cleaner, Pen Type

with adjustable grade, manageable, with bristles made of fine brass-conductors

**Art. 89025**

### Replacement Bunch Pencil Brush, Brass Wire

replacement bunch pencil brush, brass wire for Art. 89025

**Art. 89026**

### Bur Cleaner, Pen Type

pencil form, steel; with adjustable grade, manageable, with bristles made of fine brass-conductors

**Art. 89027**

### Replacement Bunch, RF Steel Wire

replacement bunch, RF steel wire, for Art. 89027

**Art. 89028**

### Diamond Cleaning Stone

white, for cleaning of diamond cutter, the humidified stone has to be claded with the cutter head by humble drive 75 x 30 x 8 mm.

**Art. 8529000**

### Cleaning Stone Grey

for cleaning and polishing of grinders with fine ties and grains 100 x 30 x 15 mm.

**Art. 85291**

### Cutter Calibre

for controlling of milling cutter shafts (concentricity). Insert cutter into opening. The shaft is in good condition, if inserting can be carried out easily. If there is a noticeable mechanical resistance, the cutter has to be replaced.

**Art. 26306**

### Cutter Tweezer

for hygienic cutter-/instruments extraction out of disinfection-dilution, approx. 15 cm

**Art. 89036**

**Art. 11326**

**Art. 11325**

### Rust Prevention Spray

sterilisable rust prevention spray for all kinds of steel instruments, avoids formation of rust during/ after the sterilisation, for autoclaves and hot air sterilisation, 200ml

**Art. 11325**

### Sterilit

oil spray in aerosol can, 300 ml, cfc-free, for care of instruments, before sterilisation

**Art. 11326**

### Nourishing Oil for Instruments

to protect and care after the sterilization, 12.2 ml

**Art. 79145**

**Art. 79145**

### Aquahol

5 litre water alcoholic mixture

**Art. 35319**

**Art. 35311**

**Art. 35313**

**Art. 35312**

### Pedicure-Napkins + Holder

The napkins absorb liquids perfectly and avoid leakage. With one side PE-coating; especially recommendable for wet-technique treatments or as a draining support to ensure hygienically-prepared instruments. Spread out: approx. 48 x 33 cm; folded: approx. 16.5 x 12 cm

### Foot Care Towels

foot motive, water-repellend, 500 pieces

**Art. 35312**

### Foot Care Towels

blue, water-repellent, 500 pieces

**Art. 35313**

### Lubrification PANASPRAY PLUS

500 ml, especially for NSK handpieces

**Art. 33126**

### Foot Care Towel Dispenser

suitable for item: no. 35312 and no. 35313, suitable for wall fastening, incl. clamp

**Art. 35311**

### Magnifying Glasses

compensation capacity of defective vision from -3 dpt to +3 dpt, 2-fold magnification, suitable for a maximum distance of 40 cm, dioptric compensation for each eye separately-adjustable, comfortable weight (approx. 49 g)

**Art. 41848**

### Magnifying Glasses

discreet, very light, stable ancillary eyeglasses, 2-fold magnification (2.5 dioptries), special metal-alloy (black), PMX low weight lens with surface coating, Perfect for pedicure, depilation, permanent make-up etc.

Working distance 25 cm

**Art. 41835**

### Supplementary Magnifying Glasses

2-fold magnification, 2.5 dioptries, working distance 25 cm

**Art. 41845**

### Protection Glasses

as eye guard at cutter working, original UVEX

**Art. 35219**

### Protection Glasses

single use, in green or white

**Art. 79616**

## Professional Transport Case Universal

- for Alfa Pro-d devices (Art. no. 33158L, 33158, 33130)
- mounting system for installing a work lamp.
- external energy connection and inboard double socket outlet.
- removable instrument box.
- integrated box with dividing elements for milling cutter and small parts.
- dimensions H x W x D: approx. 18 x 47 x 39 cm.
- weight: approx. 4.5 kg

**Art. 35231**

## Supplementary Trolley for Professional Transport Case Universal

**Art. 35232**

## Domiciliary Foot Rest

- with new, even more solid construction
- continuously adjustable in height 47 cm-68 cm
- lightweight aluminum tripod
- size of footrest: 22 cm x 18 cm

**Art. 35233** black

## Folding Stool with 3 Legs

- suitable for use at mobile foot-care
- comfortable seat,
- erected in seconds: just release and extract each leg
- carrying capacity: 200 kg
- min. length, packed: approx. 35 cm
- seat height approx. 45 cm

**Art. 35242**

## Filter Bag

10 pieces, for pedicure motor Alfa Air Pro 25

**Art. 35315**

### PEDIBUS Foot Balm, Rich for Feet with Rough, Dry Skin

Soothing balsam with a high oil content for particularly rough, dry skin. A highly effective formulation including marigold oil and special skin-care components keeps the skin soft, smooth and supple. Regular application prevents sore feet, unpleasant foot odour and itching.

dispenser, 100 ml

**Art. 13010/100**

can, 450 ml

**Art. 14010**

### PEDIBUS Foot Balm, Greasy

Care balm with high fat content for extra brittle and dry feet skin. Premium ingredients like calendula oil and special caring components considers skin flat and elastic. Regular application prevents sore feet, unpleasant foot odour and itching.

dispenser, 100 ml

**Art. 13015/100**

can, 450 ml

**Art. 14015**

### PEDIBUS Cornea Creme

Containing calendula oil, intensive care for rough and chapped skin.

can, 50 ml

**Art. 13040**

can, 450 ml

**Art. 14040**

### PEDIBUS Foot Bath Salt

Pedibus foot bath salt affects relaxing and becalming to stressed feet especially after standing or going a long time. The pleasant smell arranges a feeling of tended freshness.

can, 250 g

**Art. 13050**

can, 1000 g

**Art. 14050**

bucket, 5000 g

**Art. 14150**

### PEDIBUS Foot Deodorant Spray

Deodorises, refreshes and cares for aching feet. Apply regularly to prevent feet odor, excessive perspiration and fungal growths.

pump spray, 100 ml

**Art. 13035**

bottle, 500 ml

**Art. 14035**

### PEDIBUS Foot Bath

Cleaning care bath which refreshes and activates the feet. Abates feet ailments by softening weals and cornea. Continuous application prevents athlete's foot.

bottle, 200 ml

**Art. 13045**

bottle, 500 ml

**Art. 14045**

canister, 5000 ml

**Art. 14145**

### PEDIBUS horny Skin Softener,

Ready-to-use solution for softening extremely horned skin areas, calluses and corns. Application: a few minutes before removing horn skin, use a swab to apply non-diluted horny skin softener and allow it to work it.

bottle, 100 ml

**Art. 13055**

bottle, 500 ml

**Art. 14055**

canister, 5000 ml

**Art. 14155**

### PEDIBUS Skin And Nails Tincture

Highly effective skin and nail tincture including fungus protection. Pedibus Forte protects skin, foot- and finger nails. Fungicide and antibacterial agents protect lasting from fungal attack. 20 ml

bottle with dropper

**Art. 13060**

### PEDIBUS Dosing Pumps

for bottles

**Art. 15100**

for 450 ml cans

**Art. 15110**

for canisters

**Art. 15120**

### PEDIBUS Sticker

width: 50 cm, indoor sticker for shop window

**Art. 15225**

**Bonus in kind: When purchasing 10pcs. of the same product, you receive 2 pcs. free of charge. Standard for praxis supplies: 4+1.**

## Hydrogel Made from Silicone

Adapts to the contours of the foot, reduces pressure and friction, keeps the skin soft and supple, reusable several times.

### Hydrogel Toe Spreader

small, 2 pieces

**Art. 79770S**

medium, 2 pieces

**Art. 79770M**

large, 2 pieces

**Art. 79770L**

### Hydrogel Digital Protector

with gel pad insert, small, 2 pieces

**Art. 79370S**

with gel pad insert, medium, 2 pieces

**Art. 79370M**

with gel pad insert, large, 2 pieces

**Art. 79370L**

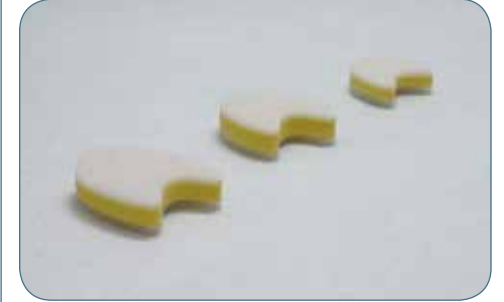

### Hydrogel Bunion Shield

small, 2 pieces

**Art. 79786M**

large, 2 pieces

**Art. 79786L**

### Toe Straightener

small, 4 pieces

**Art. 79350S**

medium, 3 pieces

**Art. 79350M**

large, 3 pieces

**Art. 79350L**

### Hydrogel Toe Separators

small, 2 pieces

**Art. 79775S**

large, 2 pieces

**Art. 79775L**

### Hydrogel Toe Caps

small, 1 piece

**Art. 79780M**

large, 1 piece

**Art. 79780L**

### Bunion Bandage

Protection for OSM Lory, with hallux valgus, medium, for shoe sizes 39-41, medium, 2 pieces

**Art. 65300**

Polymer Toe Separator

optimum protection against rubbing, noticeable relief in clavus and prevent irritation between the toes. Individually cut to size.

small, 6 pieces

**Art. 79808S**

medium, 6 pieces

**Art. 79808M**

large, 6 pieces

**Art. 79808L**

Polymer Toe Spreader

perfect protection against skin irritation, chafing and clavus, to correct toe alignment, for postoperative toes correction, to protect projecting phalanges and ball of foot deformations.

height approx. 2 cm, 4 pieces

**Art. 79806S**

height approx. 2.5 cm, 4 pieces

**Art. 79806L**

Polymer Gel Toe Cushion

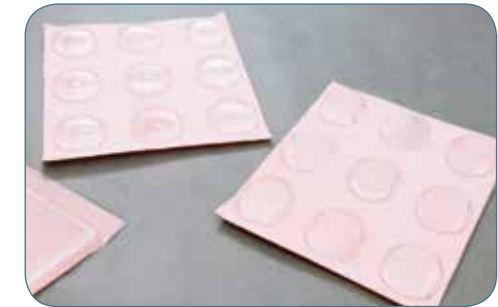

minimises pains due to pressure and friction caused by claw-like or hammer toes.

small, 2 pairs

**Art. 79830S**

large, 2 pairs

**Art. 79830L**

Polymer Gel Discs

for individual placement. The gel-side should be applied directly on the skin and fixed with dressing materials or the like. Protects from friction or pressure.

with depression, non-adhesive backside, 6 pieces

**Art. 79821**

with depression, adhesive backside, 9 pieces

**Art. 79822**

flat, non-adhesive backside, 9 pieces

**Art. 79823**

Polymer Bunion Shield

can be hung up on the first toe; shoes can be worn simultaneously.

**Art. 79802**

Polymer Gel Rings

Gel-made toe rings represent all advantages of digital caps. They are easy to use and leave the tiptoes uncovered.

Ø 1.5 cm, 6 pieces

**Art. 79828S**

Ø 2 cm, 6 pieces

**Art. 79828L**

Polymer Gel Caps

reduce pressure and rubbing caused by corns, blisters, calluses, hammer toes or ingrown nails.

Ø 1.5 cm, 6 pieces

**Art. 79826S**

Ø 2 cm, 6 pieces

**Art. 79826L**

Polymer Gel Square

Gel square, self-adhesive or without adhesive surface on the back available. Can be cut to any shape.

approx. 10 x 10 cm, 2 pieces

**Art. 79824**

approx. 10 x 10 cm, 2 pieces, adhesive

**Art. 79825**

### Polymer Toe Tube

completely gel-coated inner surfaces. Can be cut to any shape. Also suitable as a bunion protector.

2 x 15 cm, 2 pieces

**Art. 79803**

2.5 x 15 cm, 2 pieces

**Art. 79804**

### Polymer Toe Tube Bandage

even more elastic than standard toe tube. 2 x 15 cm, 2 pieces

**Art. 79805**

### Polymer Toe Tube

optimum protection from blisters, formation of calluses and corns. Can be cut to any shape.

72 cm x 15 mm, 1 piece

**Art. 79814S**

72 cm x 20 mm, 1 piece

**Art. 79814M**

72 cm x 25 mm, 1 piece

**Art. 79814L**

### Polymer Toe Pad

provides punctual relief of symptoms caused by corns, calluses, blisters or hammer toes. The circulation is stimulated by the micro-massage effect.

small, 12 pieces

**Art. 79811S**

medium, 12 pieces

**Art. 79811M**

large, 12 pieces

**Art. 79811L**

### Polymer Bunion Shield

for pains in the bunion area due to pressure and friction. Completely gel-coated.

small, 2 pieces

**Art. 79800S**

large, 2 pieces

**Art. 79800L**

### Polymer Metatarsal Chinch

protection and relief of the complete metatarsal area. Alleviates pains due to friction.

small, 1 Paar

**Art. 79819S**

large, 1 Paar

**Art. 79819L**

### Polymer Foot Pad

for even protection from pressure or friction of the forefoot. Comfortable to wear under footwear and in shoes.

small, 1 Paar

**Art. 79817S**

large, 1 Paar

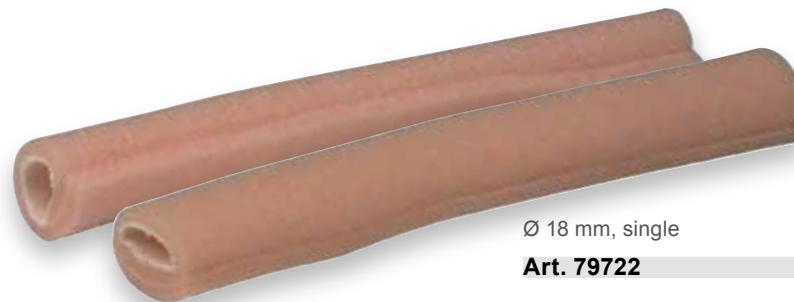

**Art. 79817L**

## Foam Tube

Compound of a single or double foam material, with solid cotton underlay, easy to form and easy to cut, protects many sensible areas from friction and pressure. Length: 25 cm

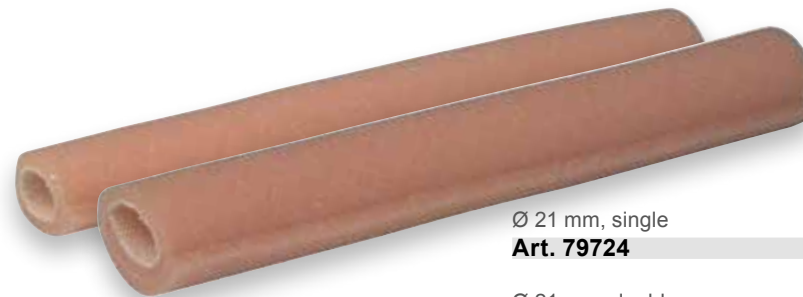

Ø 18 mm, single

**Art. 79722**

Ø 18 mm, double

**Art. 79723**

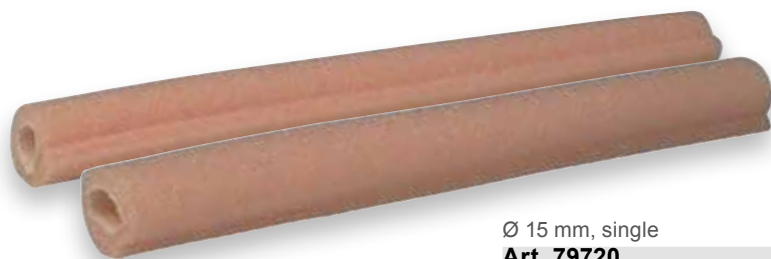

Ø 21 mm, single

**Art. 79724**

Ø 21 mm, double

**Art. 79725**

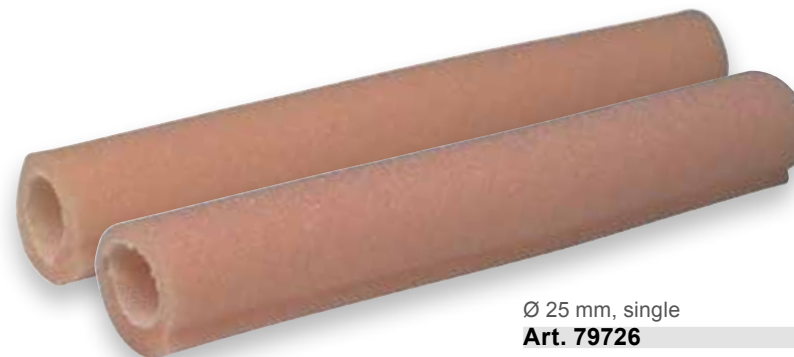

Ø 15 mm, single

**Art. 79720**

Ø 15 mm, double

**Art. 79721**

Ø 25 mm, single

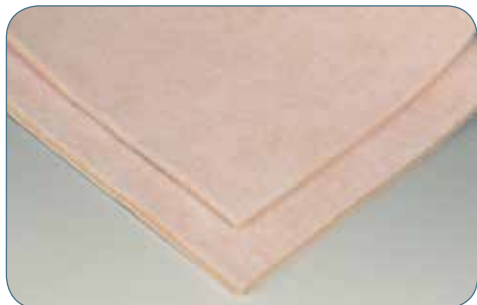

**Art. 79726**

Ø 25 mm, double

**Art. 79727**

## HAPLA Fleecyfoam

Fleecy Foam is a soft open cell polyurethane foam with the added strength of a bonded fleecy surface. Highly compressible with instantaneous recovery, ideal for light comfort cushioning. Hapla Fleecy Foam provides a smooth surface next to hosiery.

## HAPLA Fleecyfoam

22.5 x 40 cm, 5 mm strong

**Art. 79710**

## HAPLA Fleecyfoam

22.5 x 40 cm, 7 mm strong

**Art. 79711**

## Felt Rings

Ø 22 mm, 2 mm strong 24 pieces per sheet

**Art. 79360**

Ø 22 mm, 3 mm strong 24 pieces per sheet

**Art. 79361**

Ø 22 mm, 5 mm strong 24 pieces per sheet

**Art. 79362**

Ø 35 mm, 3 mm strong 12 pieces per sheet

**Art. 79363**

Ø 35 mm, 5 mm strong 12 pieces per sheet

**Art. 79364**

## HAPLA Fleecyweb

100% cotton padding with a raised fleecy surface – widely used to protect sore and tender skin from friction and rubbing. Transverse stretch allows Fleecy Web to conform to the skin which prevents creasing and provides comfort. Also available as Fleecy Web Extra with increased density and high loft for additional comfort.

## HAPLA Fleecyweb Standard

22.5 x 40 cm, 2 mm strong

**Art. 79700** from 1 sheet, apiece

**Art. 79700** from 4 sheets, apiece

## HAPLA Fleecyweb Extra

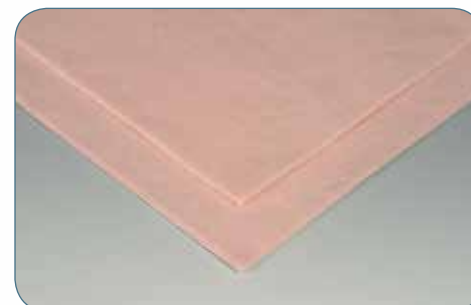

increased density and high loft for additional comfort, 22.5 x 40 cm, 2 mm strong

**Art. 79705** from 1 sheet, apiece

**Art. 79705** from 4 sheets, apiece

## HAPLA Swanfoam

Latex foam, protects against pressure and friction

## HAPLA Swanfoam

22.5 x 40 cm, 5 mm strong

**Art. 79715** from 1 sheet, apiece

**Art. 79715** from 4 sheets, apiece

## HAPLA Swanfoam

22.5 x 40 cm, 7 mm strong

**Art. 79716** from 1 sheet, apiece

**Art. 79716** from 4 sheets, apiece

## HAPLA Felt, White

Pure 100% wool felts are used as a highly versatile padding which can be easily cut and shaped providing excellent pressure absorption.

## HAPLA Felt, White

22.5 x 40 cm, 2 mm strong

**Art. 79740** from 1 sheet, apiece

**Art. 79740** from 4 sheets, apiece

22.5 x 40 cm, 3 mm strong

**Art. 79741** from 1 sheet, apiece

**Art. 79741** from 4 sheets, apiece

22.5 x 40 cm, 5 mm strong

**Art. 79742** from 1 sheet, apiece

**Art. 79742** from 4 sheets, apiece

**Art. 79360**

**Art. 79361**

**Art. 79362**

**Art. 79363**

**Art. 79364**

## Moleskin

adhesive, woven 100% cotton fabric, lightly raised on one side, protects against abrasion and splinting, 1 roll, 17.5 cm x 90 cm

**Art. 79735**

## Chirofix®

soft, transversely extensible and conformable strapping, white permeable, high tensile non woven fabric, hypoallergenic, strong adhesion

4 rolls, 10 m x 1.25 cm

**Art. 79730**

2 rolls, 10 m x 2.5 cm

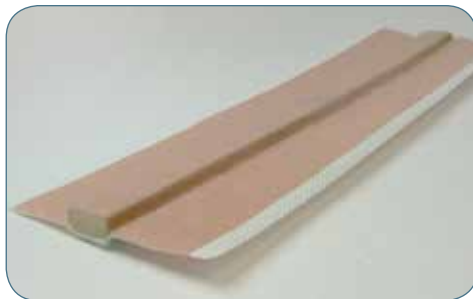

**Art. 79731**

2 rolls, 10 m x 5 cm

**Art. 79732**

1 roll, 10 m x 10 cm

**Art. 79733**

## Anti Compression Patch

7 mm strong, 25 cm long

**Art. 79319**

## Tampon Bandage

pure cotton, according to DIN 61631-TB, with woven edges, 1 box: 5 m x 1 cm

**Art. 79341**

## Hansaplast® Classic

textile woundbandage, extra strong adhesive, 5 m x 6 cm

**Art. 79325**

## Hansaplast® Soft

hypoallergenic, very cuddly, crosswise elastic and permeable to air, 5 m x 4 cm

**Art. 79326**

## Hansaplast® Elastic

very cuddly, extremely supple, good adhesion and elasticity, for moving body parts

5 m x 4 cm

**Art. 79330**

5 m x 6 cm

**Art. 79331**

5 m x 8 cm

**Art. 79386**

Lohmann Gazin Gauze

5 m

**Art. 79310**

Cellulose Pad on Roll

500 pieces, 5 x 4 cm

**Art. 79338**

Foot Pedal Waste Bin

plastic, approx. 25 litres, with foot pedal

**Art. 10317**

Safety Needles Bucket

diminished the injury and infection risk from dirty blades during disposal

Ø approx. 9 cm / h: approx. 13 cm / max. filling height: approx. 10 cm

**Art. 11319**

Hygienic Waste Bin

semi transparent plastic, removable swing lid

**Art. 78340**

Waste Bin Bags, 25 Litre

30 bags per roll

**Art. 10318**

## Latex Gloves

in sizes XS, S, M, L, 100 pieces per box

slightly powdered

**Art. 79137XS/S/M/L\***

non powdered

**Art. 79135XS/S/M/L\***

## Vinyl Gloves

in sizes XS, S, M, L, 100 pieces per box

slightly powdered

**Art. 79138XS/S/M/L\***

non powdered

**Art. 79136XS/S/M/L\***

## Nitril Gloves

latex free, with rolled cuff and roughed palm of hand, sizes S, M, L

non powdered

**Art. 79144S/M/L\***

## Latex Finger Caps

without powder, 100 pieces per box, sizes S, M, L

**Art. 79142S/M/L\***

## Face Mask Isofluid

with ear loop and nose bail, latex free, 98% cleaning capacity, external coating against infiltration of moisture, 50 pieces, pink

**Art. 79617**

## Face Mask Isofluid FogFree®

with special coat against fogging, ideal for wearer of glasses, 40 pieces, topaz

**Art. 79618**

## Face Mask

3 layer, fiber glass free filter medium with nose bail, ear loops, 50 pieces

**Art. 79615**

## Face Masks with Battery Cleaner

3 layer, fiber glass free filter medium with nose bail, soft, eudermic ear loops, 98% battery cleaner, 50 pieces

**Art. 79612**

## Disposal Paper Face Mask

with elastic ear loop, 100 pieces

**Art. 79061**

\* When ordering please indicate the desired size!

### Elmasonic S 10

- oscillating tank and housing made of stainless steel
- easy to clean
- sweep-function for optimum ultrasonic field distribution
- electronic rotary knob
- drip-proof control unit
- automatic unit switch off
- tank/inside dimensions W x H x D: 19 x 8.5 x 6 cm
- basket/inside dimensions W x H x D: 17.7 x 7.3 x 3 cm
- volume: 0.8 litre

**Art. 66531**

### Elmasonic S Podo Basic

- economical and professional ultrasonic cleaner
- complete housing made of stainless steel; robust
- with a long service life, especially when often working with disinfectants
- easy operation (sweep operates automatically, Degas-function is cancelled)
- extensive accessories
- tank/inside dimensions W x H x D: 19 x 8.5 x 6 cm
- basket/inside dimensions W x H x D: 17.7 x 7.3 x 3 cm
- volume: 0.8 litre

**Art. 66531SPB**

Elmasonic Cleaner

- ultrasonic cleaner
- LED operator guidance
- continuous operation/ remaining time indicator
- basket/inside dimensions W x H x D: 17.8 x 5 x 7.2 cm
- volume: 0.8 litre

**Art. 66530**

Elma Clean Box

- ultrasonic cleaner
- fixed acoustic irradiation period: 8 min.
- incl. 2 cleaning boxes for cutters, tweezers, colander, wall mount and lid
- basket/inside dimensions W x H x D: 17.8 x 4.7 x 8 cm

**Art. 66535**

Elma Clean Universal Cleansing Extract

1000 ml universal cleansing extract for ultrasonic cleansing. Dosage (depending on contamination) with approx. 5% of water. Insert for 4-10 min. at 60-80 °C into the ultrasonic bath, then clean parts under flowing water.

**Art. 66536**

### Hot Air Sterilizer Titanox

- temperature indicator
- safety thermostat
- timer from 0 to 120 min. with automatic shutdown
- sterilisation in 60 minutes (also 60 min. total time)
- rated power: 450 Watt
- Volume: 22 l sterilisation compartment with 3 trays
- 2 control lights
- internal dimensions W x H x D: 38 x 20 x 30 cm
- external dimensions W x H x D: 56.5 x 41 x 31.5 cm

**Art. 63915**

### Instruments Box

- adapted for heated air sterilisation, up to 200 °C sterilisable
- stainless steel
- dimensions: 18 x 8 x 4 cm

**Art. 10315S**

**Art. 10315S**

### Melag Air Circulation Steriliser Type 75

**Authorised according to MPG (Medizinproduktegesetz/ medical products law).**

In contrast to a hot air steriliser, the air circulation steriliser provides, in addition to the thermal circulation, a mechanical circulation of the air. This provides optimum heat distribution – just like in a bakery oven.

**The air circulation steriliser offers several attractive benefits:**

- only 60 minutes sterilisation time for unpacked instruments by mechanical air circulation
- more storage space for more instruments
- high accuracy temperature control by precise capillary tube regulators
- authorised according to MPG
- delivery incl. 2 trays and tray holder

### Technical data

Internal dimensions:  
w: 19.5 cm / h: 7.4 cm / d: 29.5 cm  
External dimensions:  
w: 31 cm / h: 26 cm / d: 39.5 cm  
Power consumption: 650 W  
Volume: approx. 4 l  
Weight: approx. 12 kg

**Art. 63940**

### Autoklav Melatronic 15 EN+

#### Now with drying for wrapped sterile goods

The MELAtronic 15 EN+ is the successor to the globally successful MELAtronic 15 EN, with the same features, but also with additional active drying. It works in accordance with the fractional flow procedure and complies with the requirements of „Class S“ autoclaves, namely with EN 13060.

The microprocessor control unit runs the program mode completely automatically and at all times monitors safe sterilization. The display of the operating condition and advice on possible handling requirements by the user are shown on the display. Hence, its use is comfortable, simple and safe.

The necessary recording takes place through a serial interface.

The MELAtronic 15 EN+ is the ideal autoclave. Its use is versatile and is not restricted to podological practices.

#### Technical data

Internal dimensions: Ø 15 cm / d: 38 cm  
 External dimensions: w: 44 cm / h: 33 cm / d: 50 cm  
 Power consumption: 1.500 Watt  
 Volume: approx. 7 litre  
 Weight: approx. 22 kg

### Sterilisation Rouleau

Sterilising packaging made from a film-paper combination. Suitable for steam sterilisation and lamination of instruments. Tear-resistant, bacteria-proof and easy to open. On a 200 m roll.

7.5 cm x 200 m

**Art. 63985**

10 cm x 200 m

**Art. 63986**

**Art. 63990**

**Art. 63989**

### Self-Adhesive Foil Pockets

perfect for storing of instruments after disinfection. Simply put them into the foil pocket, then remove the protective strip and lock. Hygienic storage in a professional way.

9 x 20 cm, 200 pieces

**Art. 63989**

13 x 25.5 cm, 200 pieces

**Art. 63990**

### Sterilisation Control Systems

Check your steam steriliser! These test strips will inform you about the capacity of your autoclave. Two separate test windows make the result visible similar to a biological indicator test. Suitable for sterilisation cycles with a temperature of 121 °C/134 °C. Complies with EN 867-1 standard class D as well as ISO 11140-1 class 5. Not suitable for hot air sterilisers. 250 test strips.

**Art. 63995**

### UV-C Sterilizer

Device for sterilizing materials, working by UVC. With radiation-absorbent shutter that automatically turns the unit off when opened.
